To Whom it May Concern,

re: **APM Construction Services Inc.**

In the past 10 years, SEARS Store Planning Department has completed several construction projects with APM Construction Services Inc.. These projects included interior fit-out, interior and exterior renovations, additions and alterations as well as construction of new store premises.

APM Construction Services Inc. provided very successful construction services for our SEARS stores at Charlottetown - PEI, Saint John - NB, Red Deer - AB, Deerfoot - AB, Hamilton Eastgate - ON, as well as other mini retrofits and roll-outs all over Canada.

We appreciate the high professionalism of their site superintendents and office staff, as well as the quality of work provided by the trades hired to work under APM's supervision.

This is to recommend APM Construction Services Inc. to any client requiring their expertise and experience as general contractors and construction project managers.

Sincerely,

A handwritten signature in black ink, appearing to read "Lumi Stefanescu". The signature is fluid and cursive, with a long horizontal stroke at the end.
