Duane Lamont has been a part of the APM Construction Services team since 1989. In 2011, he took the reins of the company after being Vice President of Operations for twenty years. Duane is a leader in his field, having supervised a wide range of projects including numerous innovative grocery stores, and the expansion and renovation of various retail and commercial buildings delivered through a successful design build program.

Duane is responsible for expanding APM's national presence. He oversaw the creation of branches in Halifax, Calgary, and Toronto.

APM's main priority is instituting a customer-first policy, and that is best represented Duane's day-to-day dealings. Because of his management and oversight, we have built a reputation of trust and quality among our past clients. Duane has taken the lead with portfolios including Sears, Loblaws, Toys R Us and Canadian Tire.
