Tim Banks is the President and principal shareholder of APM. He is also director and principal in a number of other companies involved in commercial real estate, retailing and manufacturing and an active partner in a variety of property development projects throughout Atlantic Canada. Tim is a Certified Engineering Technologist with 30 years of experience in all aspects of construction and property development. Tim's strength has been in creating and developing a number of multi-faceted companies involved in construction, real estate and retail development in Eastern Canada. He is well known in the Island community not only as a business leader but also for his commitment to creating opportunities for future business growth.
